

MyTechReports™

Online Water Treatment Service Reporting

Key Features

- Centralized Database Management on the Cloud
- Improved Efficiency
- Save Money & Time
- Advanced Trending
- Better Management
- Security Rights
- Custom Branding
- Reusable Setup

Application

- ▶ MyTechReports is an advanced online reporting application for water treatment companies and their technical representatives. Paper forms or software down loads are no longer needed!
- ▶ MyTechReports provides the flexibility for unique form, report templates, data and user management in a user friendly interface with loads of helpful videos. Your data is securely stored and backed up by people not in the water treatment chemical business.
- ▶ Advantage Controls is the industry leader in user friendly water treatment equipment, web communications and support. Now we can help make your daily service reporting chores faster and easier with MyTechReports.
